modern web standards & tooling

Sherwin Galindo /

WEBSITE DEVELOPER & DESIGNER

/ PROFILE

Passionate website developer and designer with 5+ years of experience and 100+ live projects delivered across restaurants, retail, and local service brands — primarily for US-based clients. Specializes in fast, hand-coded, SEO-ready websites built with semantic HTML5, modern CSS3, and vanilla JavaScript, handling every project end to end: design, development, deployment, and maintenance.

/ EXPERIENCE

Freelance Website Developer & Designer 2021 — PRESENT

Self-employed · Serving clients in the United States and the Philippines

- / Designed and developed 100+ business websites end to end — from brand-matched design systems to launch on live hosting.
- / Built custom, conversion-focused sites for restaurants, retail stores, and local brands with online-ordering and booking integrations.
- / Implemented full on-page SEO: structured data (JSON-LD), Open Graph, sitemaps, semantic markup, and performance optimization.
- / Managed hosting, domains, SSL, and ongoing maintenance for client sites on Bluehost, Cloudflare, and GitHub Pages.

/ SELECTED PROJECTS

The Jug Handle Inn

RESTAURANT & SPORTS BAR · NEW JERSEY, USA

11-page static website with background video, live open/closed hours logic, and online-ordering integration.

The Scratch Kitchen by Gallo's

RESTAURANT · PENNSYLVANIA, USA

Complete static rebuild with real photography, dynamic business hours, and a lightning-fast page experience.

Digital One Reviews

REPUTATION MANAGEMENT AGENCY · PENNSYLVANIA, USA

Multi-page agency website with full SEO, structured data, legal pages, and a brand-matched design system.

/ STRENGTHS

- / Fast-loading performance
- / SEO-friendly development
- / Clean, maintainable code
- / Conversion-focused design
